My bed inside my 1st house.  
By:Alexander

someone is under ground in his house .he is holding a tool in his hand.He might be sleepy and he wants to go to bed.He has other thigs in his poket.he lost two hearts on his heath bar.also lost to food bars.It looks like that someone will make a bigger room by mineing or they are just entering the room. I think that the bar with the grey shirt might mean that the persons clothers has holes in it.The green bar might mean that he is going to lose a heart or one food bar.Also it might mean that the person might lose a grey bar.Under the sword and the other tools have a litte green bar .I think that the green bar means how much damedged the the sword got . Maybe that when the green bar is done the sword might break.
